We have flown over 1.9 million flight miles, 54 countries, and six continents. Over many years of travel, we have tried and tested tons of travel gear and accessories; clothing, shoes, luggage, backpacks, travel guides, packing gear, and gadgets. Some appeared to be amazing, only to turn out to be duds. Others became everyday items even when not traveling. The best of the bunch has become what we feel are the best travel gear and accessories, and we would feel lost without them when traveling.

We have added some fun travel novelty items for those who love travel-themed gifts. The Christmas ornaments are our favorite.

Why you may ask, is the list below almost all Amazon links? It is the only site we buy from for all practical purposes unless buying in person. We used to price compare, but over time Amazon always won out. You can likely find these items on your favorite online shopping site.

[Woolx Merino](#)

Price point \$22-240

?????

Rating: 5 out of 5.

Woolx is our newest affiliate and we could not be more excited. Over the last year, we saw frequent ads about how Merino wool clothing was perfect for travel, especially in hot weather. It honestly sounded absurd but seeing more and more people join the Merino wool bandwagon we decided lets give it a shot during our month-long Europe trip. Well, we have jumped on that same bandwagon. Wow, Merino wool clothing is amazing!!! Stylish, fitted, lightweight, breathable, wrinkle resistant, and keeps you cool when hot and warm when cold. The best part is they are so soft and comfy. We tried several different brands and found the best quality and sizing in **Woolx**. We contacted **Woolx** to let them know how excited we were about their product line and how we wanted to share it with our readers. We are not an affiliate, so we are sharing so our readers have a great quality product. You can't go wrong with Merino wool and we anticipate it will be most of what we pack for travel moving forward.

CGBE Clear Toiletry Bag with Handle, Zipper for Traveling 3PCS Black Quart Size

Price point @ \$9.83

????

Rating: 4 out of 5.

TSA Approved Toiletry Bag fully complies with TSA 3-1-1 rules and regulations of airlines. Easy and quick to pass through airport security, save time, and no more hold-ups or hassles at the airport. The clear travel makeup quart-size bag for toiletries measures 7.7" x 5.5" x 2.4". Perfectly sized for carrying in-flight essentials, convenient to carry on when traveling or going out. No more mess!

This was a new purchase for our Croatian trip. Joelle had previously used clear makeup bags. It was always about digging around and looking for smaller items. With these, you see everything, and no time is lost retrieving what you need. Any liquid time and power can go in here. The last thing you need is liquid makeup all over your clothes. It has happened to Joelle, and it wasn't very good. Ziplock baggies work, too, but they have a preferred wider base.

Rick Steve's Hide-Away Tote Bag

Price point @ \$15.99

?????

Rating: 5 out of 5.

This is the best lightweight pack-away tote bag you will ever use. It weighs close to nothing and is very strong. It serves many purposes on trips: laundry bag, beach bag, shopping bag, supply bag for the car, extra carry-on for those post-security duty-free shops, and even check luggage. It can be stuffed anywhere, and we always have one in our day pack if we are at an open-air market and make purchases. It is machine washable.

Joelle has been using the same one for over ten years. It looks as good as the day she got it. It recently went on sale, and she bought four more gifts for family traveling overseas. When she initially bought it on Amazon, it was only available through Rick Steve's store. Comes in two colors. A must-have travel gear!

Travelon Anti Theft Backpack

Price point @ \$65.00

?????

Rating: 5 out of 5.

Joelle bought this backpack in 2016 for an overseas trip. She fell so in love with it that she uses it year-round to this day (2021). In 2020, it was beginning to look a little worn, though absolutely nothing failed on it. She bought another one. It is durable, reasonable in size, lightweight, and comfortable.

With having had multiple shoulder surgeries, it needs to be! If you look at our photos, Ryan wears it quite often as it is our only daypack. The best feature for traveling overseas is its anti-theft system. (see below)

It holds a lot in what seems like little space. It is water-resistant, but we don't suggest standing in the rain with it. It is easy to wipe down and keeps looking like new.

5-Point Anti-Theft Security System Advantage

Travelon Anti-Theft technology begins with a complex, interlocking mesh barrier engineered right below the surface material to prevent a blade attack aimed at opening up your bag.

The second is a hidden steel cable that runs the strap length to prevent it from being cut, and your bag pulled off your shoulder.

Third, the main compartments of our bags lock to prevent a skilled pickpocket's hands from accessing them.

RFID-blocking card slots and passport pockets protect against hand-held identity scanner theft.

And lock-down hardware allows you to lock your bag to a chair or stationary object when sitting in a public area.

Travelpro Maxlite 5-Softside Expandable Spinner Wheel Luggage, Black, Carry-On 22-inch

Price point @ \$145.00 This color is out of stock due to its popularity, but some other colors are available.

?????

Rating: 5 out of 5.

Travelpro is a long-standing line of luggage favored by frequent travelers. This ultra-lightweight, ultra-durable 22-inch expandable Rollaboard suitcase maximizes your packing power and meets carry-on

size restrictions for most domestic and international airlines. 4 wheel spinners rotate 360 degrees for a smooth roll. The lightweight, sturdy PowerScope handle stops at 38 and 42.5 inches and features a patented contour grip with rubberized touchpoints for easy maneuvering. A unique bottom tray design increases durability. It expands 2 inches and has a water guard to protect the interior.

Luggage is something Joelle is on the hunt for. Over the years, the one brand that withstands her abuse and overpacking is Travelpro. As some airlines also limit carry-on weight, it must be ultra-lightweight to start with. This version is 5.4 pounds. This has been used on several trips, and it lives up to its reputation. Joelle highly recommends this suitcase.

Travelpro Bold-Softside Expandable Luggage with Spinner Wheels, Grey/Black, Checked-Medium 26-Inch

Price point @ \$212.00 but can vary with color.

?????

Rating: 5 out of 5.

I strayed away from Travelpro luggage for a few years, though I never found anyone else who came close. I went on a hard-shell suitcase kick but never found the perfect piece or size. With a long history

of overpacking, I need a sturdy, lightweight piece of luggage. I have found that 25 inches is too small and 27 inches too big. Twenty-six inches was hard to find until I discovered this gem. It is my favorite ever!! Durable, reinforced straps, lightweight, and wheels glide effortlessly on any surface. I may buy one in case they ever stop making this one.

The high-quality eight-wheel spinners rotate 360 degrees for superior maneuverability. Strong, telescoping Aircraft-grade aluminum handle stops at 38 inches and 42 inches for users of different heights.

Tough-built, lightweight, 26-inch spinner is made of rugged, high-density polyester fabric with water-repellent coating for excellent stain resistance. There is a 25-inch and a 22-inch version of this model. On the Travelpro page, scroll down to Bold.

Backed by Travelpro and built with a lifetime limited warranty. Dimensions: case 26x18x11.5 inches overall 29x18. 5x12.5 inches weight: 8.9 pounds

Compression Packing Cubes for Travel, Set of 6, Color Black, Double Zipper, LeanTravel

Price point @ \$45.00

?????

Rating: 5 out of 5.

We have two packing cube sets on this list because we like both of them, and they have different features that may be more valuable to some. We began using these recently, and they are our preferred brand now. They aren't as lightweight, but they are very sturdy. What we like most about them is that they compress very well and offer multiple sizes in this set.

We will repeat what we wrote above. Many travelers swear by packing cubes. We have a mixed reaction after many years of trying. We use them for undergarments, socks, nightwear, accessories, swimwear, dresses, and skirts. For more oversized items like pants, shirts, sweaters, shoes, and boots, we find them bulky and impede our packing space. Rolling the articles to go in the cubes helps but still makes the cube bulky if using more oversized clothes. These bigger items are easily visible and can be extended to fit easier. We used them for prescription or over-the-counter meds in the past, but we prefer the mess zipper pouches better.

- **STYLISH, WRINKLE-FREE PACKING** thanks to our premium quality polyester fabric and sturdy construction with durable mesh; Clothes can be seen through an inspection, and odors are minimized thanks to increased breathability
- **PACK MORE CLOTHING INTO LESS SPACE** with the extra zipper feature for added compression; Reduce the packing bag's thickness from 4 inches to 1 inch. Best quality rated SBS brand zippers with anti-catch technology.
- **DIMENSIONS** – 15.5 x 11.5 x 4 inches (2 large cubes) 11 x 11 x 4 inches (2 medium cubes) 11 x 7.5 x 4 inches (2 small cubes)

These workhorses are incredible. This versatile clog brings unmatched comfort into your everyday work or leisure routine. OOfoam Recovery Technology absorbs 37% more impact than traditional footwear foam, giving your feet the break they need. The patented footbed will cradle your arches to reduce stress on sore feet, ankles, knees, and lower back. They are designed to allow natural motion and relief. They are very lightweight and durable. Easily wiped down and machine washable. They are not slippery on wet floors, per Joelle's experience, and her feet stay cool. Unisex sizing. They are true to size.

If Joelle could give this ten stars, she would. These shoes have been lifesavers with a history of significant foot issues, surgeries on both feet, serious injuries, and active Achilles tendonitis. Her physical therapist recommended them, and she would never travel without them. They have been on every trip in 4 years, and the first pair lasted the first three years. They are also her daily shoes. These have walked up to 17 miles in one day on cobblestone streets. They have requested Christmas gifts from her kids. Problem feet or not, these will be your favorite travel shoes! It has also been one of the best travel gear and accessories.

Lightweight and true to size. This goes in our carry-on luggage as an easy change of footwear during the flight. You know, when your footies start swelling on a long flight. Rick Steve's Travel Guides

The price point varies between \$15 to \$25

?????

Rating: 5 out of 5.

We are huge Rick Steves fans; it will be rare to recommend one of his wonderful guides. His guidance and insight are spot-on. We love his travel style and perspective. His off-the-beaten-path approach and his independent travel philosophy match how we travel. The guides never disappoint. His books make for a fantastic resource in planning and during the trip itself. The books tend to be lightweight. He suggests you tear out only the sections you need from his books to take with you. As we approach a destination, we read aloud the great synopsis of the history and details of what we are about to see. His dining and hotel selections are usually excellent. We are most drawn to how he brings the culture of where we are into the experience.

His guides are updated regularly. We have always found that, between his books and videos, he builds such excitement for the trip that no one else does.

We have developed travel guides for most of the countries we have visited. Each guide has a resource section in which we provide links to our favorite Travel Books and Maps. [Click here to view a list of our country travel guides.](#)

Cabeau Evolutions S3 Travel Pillow

Price point @ \$40

????

Rating: 4 out of 5.

The award-winning neck pillow is the best of the bunch. The pressure-relieving memory foam conforms to your unique contour and evenly distributes weight to provide hours-long comfort. The best part of this neck pillow is how it keeps you from doing that awful head falling forward that wakes you up when flying. It keeps the neck and spine in alignment and pain-free after hours of sleep. It can be used in hotels if your pillow is not ideal. The compact travels make it easy to clip it to your roller board. It attaches to your seat with velcro straps. The cover is removable, moisture-wicking, and machine washable, so your neck stays dry and comfortable.

It is one of Joelle's favorites, as she needs a neck pillow. She is not a good plane sleeper, and then adds the head falling forward that occurs with most pillows; she was always on the look-up for something better. Though this is in the higher price range, it is well-made and high-quality. It can be used for gaming, too.

Diu Life Graduated Copper Compression Socks for Women Men Circulation 20-30mmhg-Best Support for Running, Nursing, Hiking

Price point @ \$18.99

?????

Rating: 4.5 out of 5.

Medical compression socks for men and women with 20-30 mmHg. They are knee-high and made with breathable, high-performance fabric, which keeps an optimal temperature and stays odor-free. Copper-infused in the fabric claims to rejuvenate blood circulation. The fabric wicks moisture away from your skin to ensure you feel fresh and comfortable. These are high quality and hold up to prolonged use. They are easier than most pressure stockings to put on. They come in many colors, making the bright ones stand out in your sock drawer.

It is always a good idea to discuss using this kind of product with your doctor if you have any contraindications. Joelle uses these as lower leg swelling is a persistent problem for her on long flights. It stops it in its tracks. After a long day of walking and standing, she uses them at night to decrease swelling and reduce leg cramps.

International Power Adapter for Travel (SandBlack) – 4 USB European Plug Adapter for 150+ Countries – for Europe, U.K., America, China, Ireland, Italy

Price point @ \$21.00 (Black currently unavailable)

?????

Rating: 5 out of 5.

This universal power adaptor can be used in 150+ countries and fits with U.S., U.K., E.U., and China outlets. This all-in-one travel adaptor comes in one piece. Dual USB is not enough these days; you need a power travel adapter that can charge two phones, a tablet, and a camera. There is a multi-USB port hub with four smart USB ports 2x2. 4a/2x2. 1a, at 3500mA. Charge up to four devices simultaneously, with the ports automatically adapting the output for each one accordingly. It comes in various colors, and ours came with a case, but it does not mention that on Amazon.

This is an item Ryan bought to try out. We were both very pleased with how durable it was and how it functions. We would charge two phones, a laptop, and a camera battery all at the same time. Ryan is way better at not losing adapters, so having only one works well for him.

I have one of these in my carry-on at all times. They have served me well when emergencies occur on flights. During the pandemic, most people learned what an essential element they are both during travel and at home. It could be the determining factor of when to seek medical care when on the road.

This is a well-reviewed pulse oximeter. It accurately determines your SpO2 (blood oxygen saturation levels), pulse rate, and pulse strength in 10 seconds and displays it on a large digital LED display. Appropriate for ages 12 and above.

This one is pretty self-explanatory. It is for handwashing your clothes in the sink while traveling. It is rare to find a washing machine while traveling in Europe unless we have a machine at our Airbnb. This is not too bubbly, easy to rinse, and leaves the clothes smelling fresh.

If we are ever in a hotel for more than two days in a row, we wash clothes we wish to re-wear the first night so they have two days to dry. This is the perfect tiny size to do quite a few clothes. We brought one box for a two-week trip and did some laundry every three days. So much better than using the small soap they give you in most hotels.

This is the full-size version of the back we have up top on the page. This easily holds a full-size laptop, camera, change of clothes, and lots more. On one, we brought this one versus the smaller one up top. However, it was durable, protective of its contents, anti-theft, and had tons of space. It was much too big for our purposes. It would serve well as a carry-on but not a day pack. This is the exception if you are looking for a strong backpack as your only carry-on. It has lots of features, as listed below.

Anti-Theft Security System Advantage

Full Anti-Theft features include locking compartments, slash-resistant construction, and adjustable straps.

This pill organizer is color-coded and numbered to keep track of the pills you've taken easily. Never miss a dose or take too many. Perfect pill organizer for travel. This pill organizer includes 16 clear slide-locking pill pockets that can be added and removed. A clear pill pouch makes it easy to see your pills and stay organized. Made with durable polyester, the pill holder folds open and closed to keep your medications secure, while the adjustable velcro fastener keeps drugs safe in place. It easily fits in your purse, backpack, luggage, carry-on, laptop bag, or suitcase. Medical reference card to list your essential medical information in case of emergency, with space for your name, emergency contact, physician, medical conditions, allergies, and more. It is easily stored in the exterior zippered pocket.

Joelle used these for vitamins only. When traveling internationally, prescription medications must be kept in prescription bottles with a name that matches the traveler's passport. This was a hit and will be used again and again.

TrailBuddy Trekking Poles 2 Pack

Price point @ 29.00

?????

Rating: 4.5 out of 5.

Adjustable Hiking or Walking Sticks – Strong, Lightweight Aluminum 7075 – Quick Adjust Flip-Lock – Cork Grip, Padded Strap. TrailBuddy Trekking Poles’ rugged aluminum can withstand pressure and impact better than carbon fiber – crucial if hiking on rocky terrain or supporting heavier weight. Aluminum 7075 hiking sticks weigh up to 4 ounces less than the typical 6061 Aluminum common in hiking sticks – making it the perfect gift for an outdoor enthusiast!

Changing the height of these telescoping poles from 24.5 to 54 inches is a breeze even when you’re wearing gloves or trekking in wet conditions, thanks to its lever locks. Cork handles are comfy to use in hot and cold temperatures, are moisture-wicking, and mold to the shape of your hand while the strap is padded to avoid chafing.

Joelle took these to Norway during a winter trip to see the Northern Lights. These poles are lightweight, sturdy, and easy to pack in checked luggage. Comfortable grips and easy to use.

The company's mission is to help you walk comfortably in all aspects of your life, whether in dress shoes, sandals, clogs, or sneakers. They carry various technically advanced and durable brands. Some of the well-respected brands they care about are ABEO, Dansko, ECHO, Taos, Birkenstock, Mephisto, Rockport, and Merrell, to name a few. Their collection is extensive.

These are Ryan's absolute go-to travel shoes. He has been them to travel from day 1. They also stood the test of time, as he wore one pair for four years before they needed to be retired. Considering we are walkers and have done as many at 17 miles a day on our feet, these shoes are put through the wringer. Ryan doesn't tend to wear sneakers to travel; he chooses the casual yet dressy leather slip-on, such as at Rock Port and ECCO.

Our Top Recommended [Travel Products and Resources](#)

[Squaremouth.com](#)

Our favorite travel insurance site!

If you book a trip, don't forget to get travel insurance within 14 days of your first booking. We could not be stronger advocates of being well-insured. Not just for the little stuff but the big things like medical emergencies. We never leave home without it. Over the years, we have used many sites but have now found our go-to place. [Squaremouth.com](#) does a fantastic job; it has a user-friendly interface, uses top-rated and reputable insurance carriers, and most policies cover COVID-19 medical issues and cancellations. They also mediate on your behalf if you have problems with your policy.

To empower you as a consumer, we suggest you read our [blog post](#) on the importance of travel insurance and how to get the best coverage from top-rated companies for an affordable price.

[MedjetAssist](#)

Medical transport back home from anywhere in the world

They are the premier global air medical transport. One caveat to travel insurance is that medical evacuation usually gets you to the closest facility to care for you. Medjet gets you back to the U.S. to the hospital of your choice once you are stable enough to fly. They cover COVID-related transport as well.

[Medjet](#) carries its own policies. These policies are only for transport and do not cover other aspects of travel insurance. They have individual trip policies starting at \$99 and annual policies for around \$300.

Most of their policies limit the age to 74 and younger. Prices are not based on age below that.

To learn more about how Medical Evacuation membership with Medjet Assist works, check out our [blog post](#) for a more detailed review.

[Booking.com](#)

Hotels, Home rentals, BNBs, Flights, and other Transportation & Tours

[Booking.com](#) connects millions of travelers to memorable experiences, various transportation options, and incredible places to stay – from homes to hotels and much more. It is one of the world's largest travel marketplaces for established brands and entrepreneurs of all sizes.

We always check Expedia and Booking.com to verify prices. At times, one is sold out of rooms while another at the same place has rooms. We also often find some European hotels, especially smaller ones, on Booking.com but not on Expedia. It could be they are a Europe-based company. Try both before booking accommodations.

[Vacation Rental By Owner \(VRBO\)](#)

Are you traveling with a family or having an extended stay at your destination?

With over 2 million bookable vacation rentals, [VRBO](#) connects homeowners with families and vacationers looking for something more than a hotel for their trip. The [VRBO](#) community offers families or groups various rental property types such as condos, cabins, lake rentals, beach houses, etc.

[VRBO](#) is now under the Expedia group's ownership, which many were worried about, but it hasn't panned out to be a concern. It is a massive network with access to all lodging forms should issues arise. Joelle has used VRBO for many years with her family and has had no problems with it.

[Viator](#)

As the leading marketplace for travel experiences, [Viator](#) believes that making memories is what travel is all about. And with 300,000+ experiences to explore—everything from simple tours to extreme adventures (and all the niche, interesting stuff in between)—making memories that will last a lifetime has never been easier.

With industry-leading flexibility and last-minute availability, it's never too late to make any day extraordinary. This one site has it all and has experiences throughout the world. We use them often during our travels, especially for food tours. We especially take the time to read the reviews provided.
